On the above chart, **GREEN** squares indicate correct answers, **RED X's** incorrect answers, and **GRAY BOXES** no attempt.

2. **Teachers have the option of awarding partial or full credit for student answers** (perhaps as a result of looking at a student's handwritten work). **Right click** on any **incorrect** answer and choose the desired option.

Shortcut Tip: For even quicker grading, just hit the letters **f**, **p**, or **n** (for Full, Partial, or No Credit). Get More Math will jump you to the next problem automatically.

3. Student scores will appear in the **score** line of the chart for this test.
4. **Get More Math provides several options to teachers so that their students may revisit wrong answers and practice weak skills.** Please see our "Follow-Up" document for more details.
