

## Using AppStream when Java is Unavailable

Get More Math for teachers relies on an updated version of Java. Sometimes, teachers cannot get Java set up properly, so we provide a browser-based workaround called AppStream that allows for full use of Get More Math without Java. To use GMM on AppStream, you will need an AppStream login (which we will provide) as well as your normal GMM username and password.

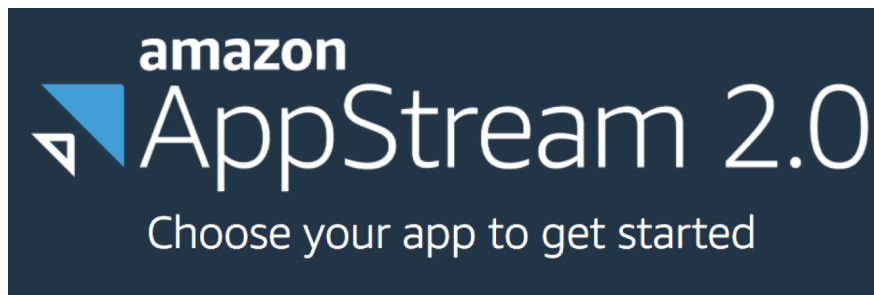

Use Chrome or Safari to go to [gmm.getmoremath.com](http://gmm.getmoremath.com) and click on the 'AppStream' button:

Use the provided AppStream email address and password to sign in:

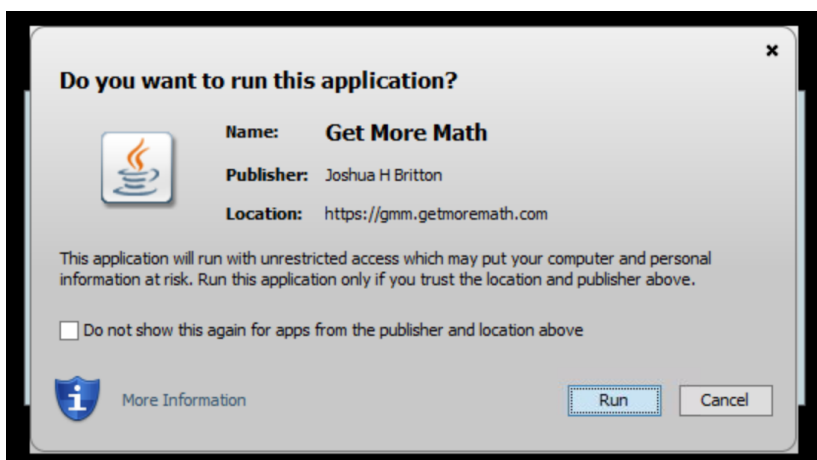

Click on the Get More Math logo to launch the program:

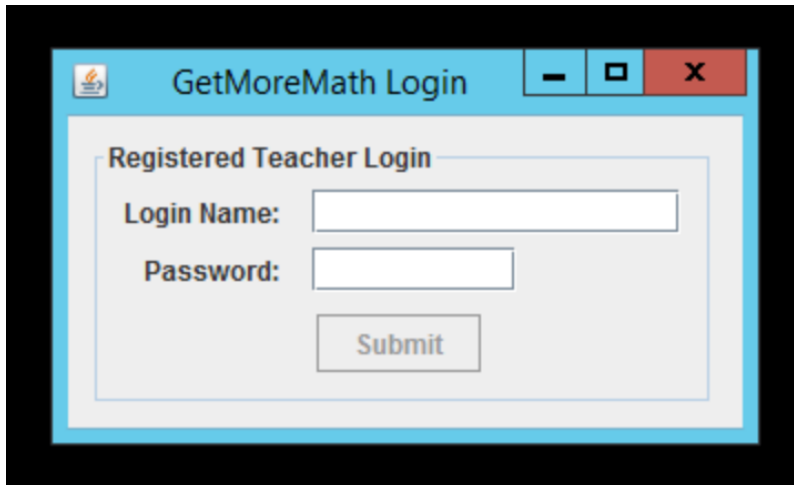

get  
more  
math!

Click "Run" when asked "Do you want to run this application?":

Enter your GMM username and password to launch the teacher program:

The image shows a screenshot of a web browser window titled "GetMoreMath Login". The window has a blue header bar with a small icon on the left and standard window control buttons (minimize, maximize, close) on the right. The main content area is a light gray box with a blue border. Inside this box, the text "Registered Teacher Login" is displayed at the top. Below this, there are two input fields: "Login Name:" followed by a text box, and "Password:" followed by a text box. Below the password field is a "Submit" button.

*Note: We recommend avoiding minimizing the Get More Math program while using AppStream as it can be difficult to get it to resize later.*

If you need assistance with AppStream or with Get More Math, please email Robbie Brown ([rbrown@getmoremath.com](mailto:rbrown@getmoremath.com)) or call him directly at (718) 644-3549.
