

Parent Guide

Get More Math is a program that provides your child with an individualized cumulative review session based on their specific needs. GMM shows you what skills your child has studied this year and where their strengths and weaknesses lie. Below are some tips on how you can better understand your child's progress.

Understanding the Colored Squares and Symbols

- Beginner - few completed or low accuracy
- Improving - more completed, accuracy is climbing
- Good - reliably accurate over several sessions
- ★ Excellent - many problems completed, almost all correct
- ★ Amazing - Tons of problems completed, almost never incorrect
- ★ Blue outline indicates this is the currently selected question
- \$ Red outline indicates the most recent attempt was wrong and has not been fixed

Understanding the Dollar Sign

Only problems marked with a \$ are eligible for a point. To earn a point, students must work out a problem with a \$ correctly on their first attempt. If they get it wrong, they must correct it, but it is no longer worth a point. Once they fix the mistake, the problem will once again be eligible for a point on the next attempt. Once your child has completed a problem, GMM will automatically choose the next colored square (question) based on your child's area of greatest need. In order for your child to reach their point goal, please remind them to only answer problems with \$ on them!

Tommy Bonno Monthly Performance							
June 2020							
	MON	TUE	WED	THU	FRI	SAT	SUN
Week 1	1	2	3	4	5	6	7
Goal Total: 59 points	Goal: 18 points	Goal: 14 points	Goal: 12 points	Goal: 15 points			
Total Points Earned: 116 points	Earned: 49 poi...	Earned: 44 poi...	Earned: 6 points	Earned: 17 poi...			
Total Errors Fixed: 15	Errors Fixed: 7	Errors Fixed: 5	Errors Fixed: 1	Errors Fixed: 2			
Week 2	8	9	10	11	12	13	14
Goal Total: 76 points	Goal: 16 points	Goal: 15 points	Goal: 18 points	Goal: 12 points	Goal: 15 points		
Total Points Earned: 130 points	Earned: 24 poi...	Earned: 45 poi...	Earned: 41 poi...	Earned: 0 points	Earned: 20 poi...		
Total Errors Fixed: 9	Errors Fixed: 1	Errors Fixed: 4	Errors Fixed: 3	Errors Fixed: 0	Errors Fixed: 1		
Week 3	15	16	17	18	19	20	21
Goal Total: 14 points		Goal: 14 points					
Total Points Earned: 64 points		Earned: 64 poi...					
Total Errors Fixed: 2		Errors Fixed: 2					

The student calendar shows daily goals set by your child's teacher and the sum of those goals for the week. In addition, the weekly and daily points earned, and errors fixed by your child are displayed.

To see your child's overall accuracy, choose Statistics from their menu bars.

Tips for Working at Home

Use the electronic "Hand Raised" feature if your child is working while their teacher is online. This will send an alert to the teacher that your child is struggling with that particular problem. Reach out to your child's teacher during their "office hours" for help.

Encourage your child to use paper and pencil to show their work. Many students take a picture of their work and send it to their teacher via email, then teleconference for assistance during their office hours. Be creative and encourage communication between your child and their teacher. Note, this feature is only available if your child and their teacher are online at the same time.
