

Winter GMM Challenge Lesson Plan

get^{more}math!

Goal:

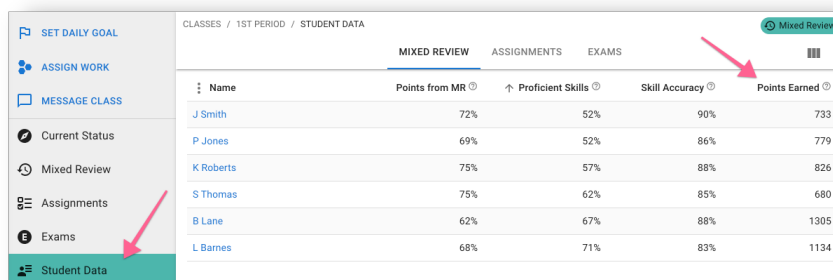

Over break, have students continue practicing their math skills in GMM's Mixed Review. This allows students to change the colors of their skills, earn points, and continue to increase their long-term retention of skills.

Materials:

- Devices (Chromebooks/iPads/computers)
- Goal sheet

Lesson:

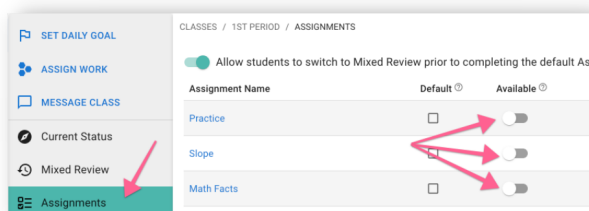

1. Print and distribute the goal sheet to your students **prior to winter break**.
2. Have students navigate to their menus, select Statistics, and record the date along with total number of points earned.
3. Collect the half sheet. If necessary, check the number of points by logging into your teacher application, choosing Student Data, and looking at Points Earned.

The screenshot shows the 'STUDENT DATA' page in the GMM application. The left sidebar has 'Student Data' selected. The main content area shows a table with columns for Name, Points from MR, Proficient Skills, Skill Accuracy, and Points Earned. A red arrow points to the 'Points Earned' column header.

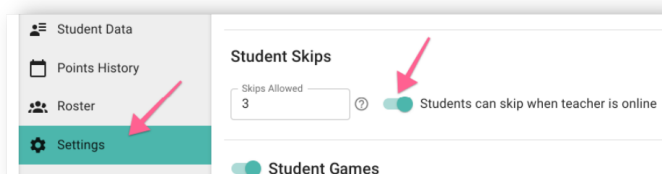

Name	Points from MR	Proficient Skills	Skill Accuracy	Points Earned
J Smith	72%	52%	90%	733
P Jones	69%	52%	86%	779
K Roberts	75%	57%	88%	826
S Thomas	75%	62%	85%	680
B Lane	62%	67%	88%	1305
L Barnes	68%	71%	83%	1134

4. Before your students start the challenge, some settings need to be changed to ensure student success. Turn off all assignments and allow skips; this will guarantee your students are working in Mixed Review over the break.

The screenshot shows the 'ASSIGNMENTS' settings page. A red arrow points to the 'Assignments' menu item in the sidebar. The main content area shows a table with columns for Assignment Name, Default, and Available. Red arrows point to the 'Available' toggle switches for 'Practice', 'Slope', and 'Math Facts', which are currently turned off.

Assignment Name	Default	Available
Practice	<input type="checkbox"/>	<input type="checkbox"/>
Slope	<input type="checkbox"/>	<input type="checkbox"/>
Math Facts	<input type="checkbox"/>	<input type="checkbox"/>

The screenshot shows the 'STUDENT SKIPS' settings page. A red arrow points to the 'Settings' menu item in the sidebar. The main content area shows a 'Student Skips' section with a 'Skips Allowed' input field set to 3 and a 'Students can skip when teacher is online' toggle switch, which is turned on. A red arrow points to this toggle switch.

Student Skips
Skips Allowed: 3
<input checked="" type="checkbox"/> Students can skip when teacher is online

5. **After the winter break**, return the half sheet to students and have them repeat the process in #2.

6. Collect to compare the points earned prior to and after the break. Provide a reward for the student who has earned the most points. (GMM bucks, candy, homework passes, listen to music, game time tickets, etc.)

Good luck, have fun, and get^{more}math!

Name: _____

Date: _____

Winter Point Challenge
