| Skill IDs Retrofitted with Match Table Grid Question Types |  |  |
| :---: | :---: | :---: |
| Grade Level | Skill ID | Skill Description |
| Grade 3 | 139010 | Identify properties used in numerical expressions |
| Grade 4 | 139011 | Identify properties used in numerical \& algebraic expressions |
| Grade 5 | 139010 | Identify properties used in numerical expressions |
|  | 139011 | Identify properties used in numerical \& algebraic expressions |
|  | 1152100 | Identify approximate formulas for circumference \& area of circles |
| Grade 6 | 760102 | Identify graphs of additive \& multiplicative relationships |
|  | 1062001 | Apply triangle inequality theorem to determine side lengths |
|  | 139010 | Identify properties used in numerical expressions |
|  | 139011 | Identify properties used in numerical \& algebraic expressions |
|  | 315011 | Given description, determine inequality, graph, \& possible solutions |
|  | 512082 | Determine sample spaces, compound events |
| Grade 7 | 1062870 | Given similar figures, identify proportion of side lengths, triangles \& quadrilaterals |
|  | 1062001 | Apply triangle inequality theorem to determine side lengths |
|  | 139010 | Identify properties used in numerical expressions |
|  | 139011 | Identify properties used in numerical \& algebraic expressions |
|  | 147005 | Order real numbers, exponents are positive |
|  | 147015 | Determine relationships between subsets of rational numbers |
|  | 147007 | Determine relationships between subsets of real numbers |
|  | 301013 | Given linear graph, identify type of slope |
|  | 1060010 | Identify similar polygons |
|  | 71052 | Determine if given value is solution to two-step linear equations |
|  | 315011 | Given description, determine inequality, graph, \& possible solutions |
|  | 1152100 | Identify approximate formulas for circumference \& area of circles |
|  | 301018 | Given graph of horizontal or vertical line, determine rate of change |
|  | 512082 | Determine sample spaces, compound events |

| Grade Level | Skill ID | Skill Description |
| :---: | :---: | :---: |
| Grade 8 | 760102 | Identify graphs of additive \& multiplicative relationships |
|  | 1062870 | Given similar figures, identify proportion of side lengths, triangles \& quadrilaterals |
|  | 139010 | Identify properties used in numerical expressions |
|  | 139011 | Identify properties used in numerical \& algebraic expressions |
|  | 520028 | Given relation \& additional point, determine functions, multiple representations |
|  | 147018 | Determine result of adding \& multiplying rational \& irrational numbers |
|  | 301116 | Given equation of horizontal or vertical line, determine rate of change |
|  | 520026 | Determine if value is in domain or range, set \& table representations |
|  | 147005 | Order real numbers, exponents are positive |
|  | 147015 | Determine relationships between subsets of rational numbers |
|  | 147007 | Determine relationships between subsets of real numbers |
|  | 301013 | Given linear graph, identify type of slope |
|  | 1153502 | Identify linear \& nonlinear associations in scatter plots |
|  | 1060010 | Identify similar polygons |
|  | 79013 | Apply converse of Pythagorean theorem |
|  | 1120017 | Given parallel lines with transversal \& angles, identify specified angle pairs, uses "same-side interior" terminology |
|  | 1153503 | Identify positive \& negative correlations in scatter plots |
|  | 315011 | Given description, determine inequality, graph, \& possible solutions |
|  | 301018 | Given graph of horizontal or vertical line, determine rate of change |
|  | 512082 | Determine sample spaces, compound events |
|  | 512088 | Determine sample spaces, independent events |
|  | 512089 | Determine sample spaces, dependent events |
|  | 71052 | Determine if given value is solution to two-step linear equations |

| Grade Level | Skill ID | Skill Description |
| :---: | :---: | :---: |
| Algebra I | 139010 | Identify properties used in numerical expressions |
|  | 139011 | Identify properties used in numerical \& algebraic expressions |
|  | 520028 | Given relation \& additional point, determine functions, multiple representations |
|  | 147018 | Determine result of adding \& multiplying rational \& irrational numbers |
|  | 320010 | Given quadratic equation, determine minimum or maximum value |
|  | 301116 | Given equation of horizontal or vertical line, determine rate of change |
|  | 602005 | Determine variation equation type, multiple choice |
|  | 520026 | Determine if value is in domain or range, set \& table representations |
|  | 147005 | Order real numbers, exponents are positive |
|  | 147015 | Determine relationships between subsets of rational numbers |
|  | 147007 | Determine relationships between subsets of real numbers |
|  | 1153502 | Identify linear \& nonlinear associations in scatter plots |
|  | 1153503 | Identify positive \& negative correlations in scatter plots |
|  | 315011 | Given description, determine inequality, graph, \& possible solutions |
|  | 301018 | Given graph of horizontal or vertical line, determine rate of change |
|  | 512082 | Determine sample spaces, compound events |
|  | 512088 | Determine sample spaces, independent events |
|  | 512089 | Determine sample spaces, dependent events |
|  | 71052 | Determine if given value is solution to two-step linear equations |
| Geometry | 1062870 | Given similar figures, identify proportion of side lengths, triangles \& quadrilaterals |
|  | 1062001 | Apply triangle inequality theorem to determine side lengths |
|  | 1153502 | Identify linear \& nonlinear associations in scatter plots |
|  | 1060010 | Identify similar polygons |
|  | 79013 | Apply converse of Pythagorean theorem |
|  | 1120017 | Given parallel lines with transversal \& angles, identify specified angle pairs, uses "same-side interior" terminology |
|  | 1153503 | Identify positive \& negative correlations in scatter plots |
|  | 1152100 | Identify approximate formulas for circumference \& area of circles |
|  | 512082 | Determine sample spaces, compound events |
|  | 512088 | Determine sample spaces, independent events |
|  | 512089 | Determine sample spaces, dependent events |

| Grade Level | Skill ID | Skill Description |
| :---: | :---: | :---: |
| Algebra II | 139011 | Identify properties used in numerical \& algebraic expressions |
|  | 147018 | Determine result of adding \& multiplying rational \& irrational numbers |
|  | 320010 | Given quadratic equation, determine minimum or maximum value |
|  | 301116 | Given equation of horizontal or vertical line, determine rate of change |
|  | 520026 | Determine if value is in domain or range, set \& table representations |
|  | 147015 | Determine relationships between subsets of rational numbers |
|  | 147007 | Determine relationships between subsets of real numbers |
|  | 1153502 | Identify linear \& nonlinear associations in scatter plots |
|  | 1153503 | Identify positive \& negative correlations in scatter plots |
|  | 315011 | Given description, determine inequality, graph, \& possible solutions |
|  | 512082 | Determine sample spaces, compound events |
|  | 512088 | Determine sample spaces, independent events |
|  | 512089 | Determine sample spaces, dependent events |
| Math 1 | 1062870 | Given similar figures, identify proportion of side lengths, triangles \& quadrilaterals |
|  | 1062001 | Apply triangle inequality theorem to determine side lengths |
|  | 520028 | Given relation \& additional point, determine functions, multiple representations |
|  | 320010 | Given quadratic equation, determine minimum or maximum value |
|  | 301116 | Given equation of horizontal or vertical line, determine rate of change |
|  | 520026 | Determine if value is in domain or range, set \& table representations |
|  | 301013 | Given linear graph, identify type of slope |
|  | 1120017 | Given parallel lines with transversal \& angles, identify specified angle pairs, uses "same-side interior" terminology |
|  | 1153503 | Identify positive \& negative correlations in scatter plots |
|  | 71052 | Determine if given value is solution to two-step linear equations |
|  | 301018 | Given graph of horizontal or vertical line, determine rate of change |
|  | 1153502 | Identify linear \& nonlinear associations in scatter plots |

| Grade Level | Skill ID | Skill Description |
| :---: | :---: | :---: |
| Math II | 1062870 | Given similar figures, identify proportion of side lengths, triangles \& quadrilaterals |
|  | 1062001 | Apply triangle inequality theorem to determine side lengths |
|  | 139011 | Identify properties used in numerical \& algebraic expressions |
|  | 520028 | Given relation \& additional point, determine functions, multiple representations |
|  | 147018 | Determine result of adding \& multiplying rational \& irrational numbers |
|  | 320010 | Given quadratic equation, determine minimum or maximum value |
|  | 301116 | Given equation of horizontal or vertical line, determine rate of change |
|  | 1060010 | Identify similar polygons |
|  | 1120017 | Given parallel lines with transversal \& angles, identify specified angle pairs, uses "same-side interior" terminology |
|  | 1153503 | Identify positive \& negative correlations in scatter plots |
|  | 301018 | Given graph of horizontal or vertical line, determine rate of change |
|  | 512082 | Determine sample spaces, compound events |
|  | 512088 | Determine sample spaces, independent events |
|  | 512089 | Determine sample spaces, dependent events |
| Math III | 147018 | Determine result of adding \& multiplying rational \& irrational numbers |
|  | 320010 | Given quadratic equation, determine minimum or maximum value |
|  | 301116 | Given equation of horizontal or vertical line, determine rate of change |
|  | 520026 | Determine if value is in domain or range, set \& table representations |
|  | 315011 | Given description, determine inequality, graph, \& possible solutions |
