5.2: Number	* & Operations: Place Value
5.2A(S)	
Skill Code	Description
55003	Identify place values of specific digit, decimals
55104	Determine numerical value of specific digit
55010	Given number in word form, determine standard notation
	Convert between standard & expanded notations, up to three
55012	decimal places
	Convert between standard & expanded notations, up to three
55014	decimal places, real-world context
	Convert between word, standard, & expanded notations,
55021	including real-world context
5.2B(R)	
Skill Code	Description
58051	Given decimals, identify locations on number line
	Compare numbers, up to four-digit whole numbers or three-digit
55105	decimals
55023	Compare decimals up to three decimal places
	Compare decimals written in word form, up to three decimal
55017	places
	Order decimals up to three decimal places, including real-world
55019	context
58052	Order decimals from table of place values, real-world context
	Compare or order decimals, up to three decimal places,
55022	including real-world context
5.2C(S)	
Skill Code	Description
	Round decimal numbers to nearest tenth & hundredth, real-
53018	world context
	Round decimal numbers to nearest tenth & hundredth, including
43016	real-world context
	& Operations: Positive
5.3A(S)	
Skill Code	Description
43010	Round whole numbers using front-end rounding
43060	Round decimal numbers to nearest whole, tenth & hundredth
4005:	Round decimal numbers to nearest tenth & hundredth, including
43061	real-world context
40004	Round decimal numbers to nearest tenth, hundredth, &
43024	thousandth, real-world context

43014	Estimate solutions involving all operations, real-world context
5.3B(S)	Estimate solutions involving all operations, real-world context
Skill Code	Description
30011	Multiply whole numbers, three-digit & one-digit
30011	Multiply whole numbers, three-digit & two-digit
30012	Multiply whole numbers, three-digit & two-digit, including
30015	addition or subtraction step, real-world context
5.3C(S)	addition of Subtraction Step, real World Context
Skill Code	Description
	Determine quotient & remainder, three-digit dividend, one-digit
24010	divisor
	Determine quotient & remainder, three-digit dividend, two-digit
24011	divisor
	Determine quotient & remainder, three-digit dividend, up to two-
24020	digit divisor
	Determine quotient & remainder, four-digit dividend, one-digit
24012	divisor
	Determine quotient & remainder, four-digit dividend, two-digit
24013	divisor
	Determine quotient, up to four-digit divide, up to two-digit
280005	divisor, real-world context
	Determine quotient & remainder, four-digit dividend, up to two-
24021	digit divisor
	Solve problems involving division of positive integers, real-world
280001	context
5.3D(S)	
Skill Code	Description
	Determine equivalence between base-10 models &
32011	multiplication equations
	Determine equivalence between area models & multiplication
32010	equations
	Determine equivalence between number line models &
32012	multiplication equations
	Determine equivalence between models & multiplication
32014	equations
5.3E(R)	In
Skill Code	Description
32008	Multiply decimals, products limited to two decimal places
20000	Multiply decimals, products limited to two decimal places, real-
32009	world context

5.3F(S)	
Skill Code	Description
	Identify base-10 model that represents quotient of decimal
22007	division
	Determine equivalence between base-10 model & components
22009	of decimal division
	Determine equivalence between base-10 model & components
22011	of decimal division, quotient limited to tenths
	Given model representing decimal division, interpret model &
22008	determine quotient, including money
	Given area model representing decimal division, interpret model
22050	& determine quotient, including real-world contet
	Given number line model representing decimal division, interpret
22051	model & determine quotient including real-world context
	Given model representing decimal division, interpret model &
22010	determine quotient, including real-world context
5.3G(R)	
Skill Code	Description
22020	Divide four-digit dividends by two-digit whole number divisors
	Divide four-digit dividends by two-digit whole number divisors,
22021	including real-world context
	Determine quotient & remainder, two-digit dividend, two-digit
24009	divisor
	Determine quotient & remainder, two-digit dividend, up to two-
24019	digit divisor
	Determine quotient & remainder, four-digit dividend, up to two-
24021	digit divisor
5.3H(S)	
Skill Code	Description
204029	Add & subtract fractions, area models
204027	Add & subtract fractions, fraction strips
204028	Add & subtract fractions, number lines
204030	Add & subtract fractions, various models
	Given model, determine or interpret addition & subtraction of
204032	fractions
5.3I(S)	Description.
Skill Code	Description
005004	Identify model representation of multiplication of fraction &
205021	whole number

205022	Multiply whole numbers & fractions, area models
	Identify models or multiply whole numbers & fractions using area
205023	models
5.3J(S)	
Skill Code	Description
205026	Divide whole numbers & unit fractions, area models
205025	Divide whole numbers & unit fractions, fraction strips
205024	Divide whole numbers & unit fractions, number line
1701001	Divide whole numbers by unit fractions, models
205027	Divide whole numbers & fractions, various models
5.3K(R)	
Skill Code	Description
	Add fractions, different denominators, including mixed number
204006	sums
	Subtract fractions, one denominator multiple of other, proper
204005	fraction difference
	Add or subtract whole numbers, fractions, or decimals, real-
77033	world context
	Add & subtract decimals, up to three decimal places, real-world
710001	context
710002	Add & subtract decimals, fractions real-world context
710003	Add & subtract rational numbers, real-world context
5.3L(R)	
Skill Code	Description
205013	Divide whole numbers by unit fractions
205040	Divide whole numbers & unit fractions
	Divide whole numbers & unit fractions, including unit fraction
205014	multiplication, real-world context
5.4: Algebra	ic Reasoning: Expressions & Equations
5.4A(S)	
Skill Code	Description
105001	Identify prime & composite numbers
105002	Identify prime & composite numbers, real-world context
5.4B(R)	
Skill Code	Description
77050	Determine one-step linear equations, real-world context
77051	Determine & solve one-step linear equations, real-world context
	Solve two-step equation with isolated variable, real-world
77136	context
	-

77550 variable, real-world context 77034 Identify multi-step equations, real-world context 5.4C(R) Skill Code Description 720501 Given graph of linear points, identify table 720503 Given graph of linear points, identify table, real-world context 720504 Given linear equation, identify table, including decimals 720505 Given linear equation, identify table, including decimals 720505 Given linear equation, identify table, including decimals 720506 Given linear equation, identify table, including decimals & fractions, real-world context Given linear equations, identify table, including decimals & fractions, real-world context Identify equivalent linear equations, tables, & graphs, including real-world context 5.4D(S) Skill Code Description Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols evaluate numerical expressions, multiple grouping symbols Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal dimensions, real-world context		Determine & solve two-step linear equations with isolated
Identify multi-step equations, real-world context	77550	· · · · ·
Skill Code Description 720501 Given graph of linear points, identify table, real-world context 720503 Given graph of linear points, identify table, real-world context 720504 Given linear equation, identify table, including decimals 720505 Given linear equation, identify table, real-world context Given linear equation, identify table, real-world context Given linear equation, identify table, including decimals & 720502 fractions, real-world context Identify equivalent linear equations, tables, & graphs, including real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal	77034	
720501 Given graph of linear points, identify table 720503 Given graph of linear points, identify table, real-world context 720504 Given linear equation, identify table, including decimals 720505 Given linear equation, identify table, real-world context 720506 Given linear equation, identify table, including decimals & fractions, real-world context 720502 fractions, real-world context 1 Identify equivalent linear equations, tables, & graphs, including real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal 1040201 Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 Determine perimeter of rectangles, including decimal		
720503 Given graph of linear points, identify table, real-world context 720504 Given linear equation, identify table, including decimals 720505 Given linear equation, identify table, real-world context Given linear equation, identify table, including decimals & 720502 fractions, real-world context Identify equivalent linear equations, tables, & graphs, including real-world context 720001 real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	Skill Code	Description
720504 Given linear equation, identify table, including decimals 720505 Given linear equation, identify table, real-world context Given linear equation, identify table, including decimals & fractions, real-world context Identify equivalent linear equations, tables, & graphs, including real-world context 1.	720501	Given graph of linear points, identify table
720505 Given linear equation, identify table, real-world context Given linear equation, identify table, including decimals & 720502 fractions, real-world context Identify equivalent linear equations, tables, & graphs, including real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	720503	Given graph of linear points, identify table, real-world context
Given linear equation, identify table, including decimals & fractions, real-world context Identify equivalent linear equations, tables, & graphs, including real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	720504	Given linear equation, identify table, including decimals
720502 fractions, real-world context Identify equivalent linear equations, tables, & graphs, including real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 Determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal	720505	Given linear equation, identify table, real-world context
Identify equivalent linear equations, tables, & graphs, including real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal		Given linear equation, identify table, including decimals &
720001 real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	720502	fractions, real-world context
720001 real-world context 5.4D(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal		Identify equivalent linear equations, tables, & graphs, including
Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal	720001	real-world context
720002 Given graph or table, identify additive or multiplicative pattern 5.4E(S) Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	5.4D(S)	
Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 Given model, identify formula & determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal	Skill Code	Description
Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 Given model, identify formula & determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal		
Skill Code Description 720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 Given model, identify formula & determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal	720002	Given graph or table, identify additive or multiplicative pattern
720002 Given graph or table, identify additive or multiplicative pattern 5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	5.4E(S)	
5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	Skill Code	Description
5.4F(R) Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal 1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal		
Skill Code Description Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal	720002	Given graph or table, identify additive or multiplicative pattern
Evaluate numerical expressions, including rationals & up to two sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	5.4F(R)	
48021 sets of grouping symbols Evaluate numerical expressions, up to two sets of grouping 48022 symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	Skill Code	Description
Evaluate numerical expressions, up to two sets of grouping symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal		Evaluate numerical expressions, including rationals & up to two
48022 symbols, real-world context 47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal	48021	sets of grouping symbols
47121 Evaluate numerical expressions, multiple grouping symbols 5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal Determine perimeter of rectangles, including decimal		Evaluate numerical expressions, up to two sets of grouping
5.4G(N) Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	48022	symbols, real-world context
Skill Code Description 1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	47121	Evaluate numerical expressions, multiple grouping symbols
1152104 Interpret volume of rectangular prisms, various representations 5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	5.4G(N)	
5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	Skill Code	Description
5.4H(R) Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal		
Skill Code Description Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	1152104	Interpret volume of rectangular prisms, various representations
Determine perimeter of rectangles, including decimal dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	5.4H(R)	
1040202 dimensions Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	Skill Code	Description
Given model, identify formula & determine perimeter of rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal		Determine perimeter of rectangles, including decimal
1040201 rectangles, including decimal dimensions Determine perimeter of rectangles, including decimal	1040202	dimensions
Determine perimeter of rectangles, including decimal		Given model, identify formula & determine perimeter of
	1040201	rectangles, including decimal dimensions
1040204 dimensions, real-world context		Determine perimeter of rectangles, including decimal
	1040204	dimensions, real-world context

	¬
	Given perimeter of rectangle & one side, determine dimension,
1040203	including decimals
1040126	Given model, identify formula & determine area of rectangles
1062998	Given length & width of rectangle, determine area
	Given area of rectangle & one dimension, determine other
1062999	dimension
1042514	Determine volume of cubes, whole numbers or decimals
	Determine volume of cubes, whole numbers or decimals, real-
1042511	world context
	Determine volume of rectangular prisms, whole numbers or
1042023	decimals
	Given volume, determine edge of rectangle prisms, up to four-
1042515	digit dividend, up to two-digit divisor
	Determine volume or edge of rectangular prisms, whole numbers
1042513	or decimals, real-world context
5.5: Geome	try & Measurement: Two-Dimensional Figures
5.5A(R)	
Skill Code	Description
	Classify polygons using graphic organizers, including types of
1043001	triangles
5.6: Geome	try & Measurement: Volume
5.6A(R)	
Skill Code	Description
	Determine volume or edge of rectangular prisms using unit
1042021	cubes
1042025	Determine volume of rectangular 3D figures using unit cubes
1042024	Determine volume of rectangular prisms using unit cubes
5.6B(S)	
Skill Code	Description
	Determine volume of rectangular prisms, whole numbers,
1042509	volume less than 10,000
	Determine volume of rectangular prisms, whole numbers or
1042032	decimals
	Determine volume of rectangular prisms using repeated layers of
1042020	base area, real-world context
5.7: Geome	try & Measurement: Measurement
5.7A(S)	
Skill Code	Description
1440027	Convert between customary units, real-world context
	Convert between customary units to find sums or differences,
1440017	including real-world context

	Given conversion chart, convert between metric units, real-world
1440028	context
1440019	Convert customary & metric units, real-world context
1440026	Convert between metric units, including real-world context
5.8: Geome	try & Measurement: Coordinate Plane
5.8A(S)	
Skill Code	Description
	Identify locations or parts of coordinate plane using first
700008	quadrant points
5.8B(S)	
Skill Code	Description
700009	Identify description of process to plot first quadrant points.
5.8C(R)	
Skill Code	Description
	Determine or identify first quadrant points, including cardinal
700007	directions, real-world context
700001	Plot first quadrant points
700004	Plot first quadrant rational points
700092	Plot first quadrant points, various scales
700002	Determine coordinates of first quadrant points
700005	Determine coordinates of first quadrant rational points
700093	Determine coordinates of first quadrant point, various scales
700003	Plot or determine coordinates of first quadrant points
5.9: Data An	alysis: Data
5.9A(S)	
Skill Code	Description
1413002	Given table, determine equivalent bar graph
	Given table, determine equivalent bar graph, including double
1413006	bar graphs
	Given data, identify frequency table or determine missing
730300	element of table
730516	Given data, identify stem & leaf plot
730522	Given data, identify dot plot
1413014	Given bar graph, determine equivalent table or pictograph
5.9B(S)	
Skill Code	Description
	Identify equivalent representations of data in tables & scatter
730007	plots
5.9C(R)	
Skill Code	Description
730204	Solve one-step problems from dot plots, real-world context

730001 So 730202 So	ontext olve one-step problems from bar graphs, real-world context olve one-step problems from scatter plots, real-world context olve multi-step problems from dot plots, real-world context
730202 So	olve one-step problems from scatter plots, real-world context
730512 So	olve multi-step problems from dot plots, real-world context
730510 So	olve multi-step problems from bar graphs, real-world context
So	olve multi-step problems from frequency tables, real-world
730500 co	ontext
So	olve multi-step problems from stem & leaf plots, no measures
730304 of	f central tendency, real-world context
5.10: Personal I	Financial Literacy
5.10A(S)	
Skill Code De	escription
780001 Ide	lentify various types of taxes
5.10B(S)	
Skill Code De	escription
780002 Ide	lentify & determine gross & net income
5.10C(N)	
Skill Code De	escription
Ide	lentify advantages & disadvantages of various payment
780107 m	nethods
5.10D(N)	
Skill Code De	escription
780108 Ba	alance & determine components of transaction register
5.10E(S)	
Skill Code De	escription
780003 Ide	lentify actions to balance budget
5.10F(S)	
Skill Code De	escription
780004 De	etermine amounts to balance budget
