

Implementing GMM - 90 min class option 1

get**m**OREmath!

Before class...

- Find GMM skills that match new content/topic
- Choose no more than 3 skills for the assignment and keep default 3 points per skill
- Include at least 9 Spiral Review points in assignment

10 minutes - Spiral Review Warm-up

- Teacher clicks 'Switch Class to Spiral Review'
- Students check the 'show clock' box in their menu.
- Expectation of students earning 4 points or more

50 minutes - Lesson

- Teach new skills using desired methods (coop learning, pair work, direct instruction, etc)
- At the end of the lesson, model each new GMM skill using the full-screen icon 

30 minutes - Using GMM for Skills Practice

- Click 'Current Status' to view student data in real-time
- Encourage students show work on paper as needed
- Click 'Switch Class to Spiral Review' to end class

After class...

- Click 'Assignments' to check completion/grade
- Click 'Spiral Review' to view student proficiency data
- Students showing white or red may need remediation during tomorrow's 10-min warm-up

Good luck, have fun, and get**m**OREmath!
