

Quest to 67 Lesson Plan

getMOREmath!

Goal:

Motivate students to consistently earn points.

Materials:

- Devices (Chromebooks/iPads/computers)
- GMM 67 Ticket

Lesson:

1. Have students spend about 10-15 minutes each day working in GMM, or longer if time allows.
2. When a student's points display a '67' in either **Points Today** or **Points This Week**, award them a GMM 67 Ticket that can be redeemed later for a larger prize.
 - Some examples: 67, 167, 267, 670... 😊

The screenshot shows the GMM interface. At the top, there's a green header with 'Spiral Review' on the left, 'Points Today 31' and 'Points This Week 67' in the center, and a menu icon on the right. A yellow arrow points to the 'Points This Week 67' text. Below the header, there's a 'Spiral Review' section with a calendar grid showing progress from July to December. A 'Current Skill' section is on the right, displaying a math problem: 'Rob has a set of rare gems that he is separating into equal groups. If there are 65 rare gems in the set, which choice best describes the number of groups he could separate the rare gems into so that there are no leftover rare gems?'. The choices are: 2 groups, 5 groups, 10 groups, and None of the above. The '10 groups' option is selected with a green checkmark. Below the problem, it says 'skill code: 20100'. At the bottom, there's a green footer with 'O. Cooper', '5 game credits', and the 'gmm' logo.

3. Possible prizes:

- [Homework Pass](#)
- [Seat Swap Ticket](#)
- [Candy/Snacks](#)
- [Music Pass](#)
- [Free Time Ticket](#)
- [Gift Card](#)

Good luck, have fun, and **getMOREmath!**
